KERYKEION QABALAH POEMS

KERYKEION QABALAH POEMS is the 4th book about and with the KERYKEION TAROT. This time a little big adjustment of interpretation about the "OTZ CHIIM - TREE of LIFE" > the Qabalah. Accompanied with a brief depiction of the 'new' comprehension in a legenda.

The actual poems are represented with a lot of multiple indications, word etymology, sound equivalence and "reading between the lines".

Practiced consciousness of difference > Law of Trinity.

An interpretation of the 'spheres', the 'plains', the sefirot of the Qabalah.

Enjoy,

PREFACE

KERYKEION QABALAH POEMS:

This is the fourth poem presentation contributing to the KERYKEION TAROT. It is mere formality to remind you these writings of mine are only my own 8 chakras triangulations and interpretation of the studied systems.

To evolve beyond, systems have been developed to navigate the realms of consciousness . . . loooooong time ago!

Of course the Law of Trinity, the law of differ, is basic.

(most basic comprehension we can conceive)

The "Circle, Triangle & Cube" clearly its representations.

Tarot, zodiac and chakras, again, mutated extensions.

It is all about the essence of existence, universal fractality; plasma cosmology; toroidal fields; electromagnetism, same thing.

Ancients have incorporated this knowledge e v e r y w h e r e.

Step by small step one begets comprehension of knowledge systems which try or/and claim to represent reality. I gladly share, by means of these poems and drawings in the legenda, my vision[s] of all those years contemplating.

Clarifying the 3 pages legenda:

Legenda A It became clear to me that the "fallen", as well meaning "unaware", is represented in the Qabalah Tree by the 'hanging out downwards' of the middle row of the Sefirot. Hence why Malkuth is extruded > expelled > symbolically represented by Adam & Eve!

I placed side by side the 'classical' depiction as well the 'Initiating' OTZ CHIIM = the tree of life = the Qabalah. It was already clear the first seven sefirot are equal to the Vedic chakras, now "pulled" up. I have named the 'classical' the "Qliphot" and the 'new' pulled up one, the "Qabalah".

To round it of I show Nature's result in the DNA shaped as a tree, in the middle.

Legenda B Once "Qabalah - Qube Allah" became obvious the next concoction about the "Qliphot - Clay Pot" didn't take long! Of course! How logic and simple! 'We' are all created out of the clay -atoms! No more doom scenario's.

Triangle & Cube combined with tarot, initially developed by P.D. Ouspensky in 1913, adapted to 'fit' my tarot -middle right- .

Legenda C Literarily a day after, the 3D model appeared in my imagination > the 3rd eye realm. A drawing of a 3 dimensional model showed clearly Chakra's and Zodiac combined in a cube. Exact locations irrelevant. All is simultaneous. Everything, conceivable & unconceivable.

Learning to manage all those forces is clearly where these kind of systems were created for. Nothing spooky, secret or mystical.

Poems and pictures have become my two most favourites of presenting my insight. Words are being taught to have fixed meaning, but once you discover the sound alphabet and learn how to hear, you become able to only listen to the sound of a word and automatic etymology reveals the words remarkable correspondences. Even in combination and with other languages revealing remarkable relations in meaning and designation. A poet's witty dream!

With this work, and incorporating modern science references into the poems, I hope to create a comprehension for these systems. With the Law of Trinity at hand as traffic rules, the Qabalah is a 'roadmap' for the mind.

The ultimate difference is differ itself.
